

Integrated Postsecondary Education Data System 2000-2001 Data Collection Plan

The attached document presents the NCES plan for collecting IPEDS data for the 2000-2001 academic year. Although the final report of the Task Force on IPEDS Redesign recommended a three-phase data collection that included all surveys and data items that are being collected in 1999-2000, the FY 2000 Congressional appropriation for NCES will not support that level of activity.

NCES plans two data collections: (1) Fall 2000 that will include Institutional Characteristics (IC), Institutional Price from IPSFA, and Completions (C); and (2) Spring 2001 that will include Enrollment (both fall and full year), Finance (F) including Student Financial Aid from IPSFA, and the Graduation Rates Survey (GRS). The Fall 2000 collection period will run from September 1 through October 31, 2000; the Spring collection period will run from February 16 through April 5, 2001.

All of the surveys slated for the Spring are reduced versions of the current surveys. The items that are requested for 2000-2001 are considered critical data items and are needed to satisfy reporting mandates such as Title IV, Title VI, Title IX, and Student Right to Know. Additionally, the criteria of data availability and use, and size of the Spring collection were used to determine which data items would be collected.

There are two obvious omissions from this data collection as proposed. NCES anticipates that AAUP will continue to collect faculty salary data and make this available to the public. NCES also expects that EEOC will collect the Fall Staff data that were formerly collected on the EEO-6 form in order to fulfill their mandate. Should EEOC elect to support the collection of these data through IPEDS, NCES would certainly consider expanding the system to include Fall Staff in the future. In any event, NCES plans to collect (at a minimum) the matrix data proposed by the NPEC focus group on Faculty and Staff. These matrices will be added in 2001.

NCES hopes to add additional items as included in the IPEDS Redesign Report to the data collection in 2001-2002 if funding permits. Your timely comments on this plan are welcome.

4/7/2000

NOTE: Several segments of the postsecondary community have an interest in more detailed full-year enrollment figures than are presently collected by IPEDS. Data of this sort could be included in the future; however, development and implementation would take substantial time and funding, and data would not be collected until 2002-2003 at the earliest.				
NOTE: An item that asks for the total number of undergraduate in the entering class (including first-time, transfer, and non-degree students) will be added in 2001, per recommendation of the NCES Taskforce for IPEDS Redesign. This will be used to calculate the proportion of the entire undergraduate entering class represented by the Graduation Rate cohort.
